BBI JU's  
Partnering  
Platform -  
building your  
networks

# BBI JU Partnering

- BBI JU Partnering is the **online networking system** for the bio-based community! It assists you in identifying members which share your interests **for specific topics** and **facilitates your networking** to **build consortia** for the BBI calls
- **Call topics** with information about interested members
- Detailed **member profiles**
- **Pitches** for specific topics
- Pre-scheduling **meetings** with **BBI Info Day attendees**

The image shows a desktop view of the BBI JU Partnering website and a mobile app interface. The website header includes navigation links for Contact, Members Login, Visit us, and a search bar. The main content area features the BBI logo, a navigation menu (Home, About BBI, Participate), and an Events section. A calendar for April 2017 is displayed, with the 20th, 26th, and 28th highlighted. The 28th is labeled 'BBI JU 2017 OPEN INFO DAY'. Below the calendar, there is a BBI logo and text indicating the venue: 'Alcide De Gas Commission, I'. At the bottom of the website view, there are buttons for 'Download on the App Store' and 'GET IT ON Google play'. The mobile app interface shows the same BBI logo and a section titled 'BBI Partnering' with a brief description of the platform's purpose.

# 2017 Info Day – BBI JU Partnering

- Dedicated section “Open Info Day”:
- Programme
- Catalogue of attendees
- Catalogue of pitches
- Send meeting invitations
- Accept meeting invitations
- Review/organise agenda

# 2017 Info Day – BBI JU Partnering

- More than 300 attendees inform about their activities and aims
- Around 100 pitches displayed and more to come!
- Around 200 attendees used BBI Partnering this year to organize personal meetings in the afternoon session.
- 500 meetings have already been pre-scheduled for today ...

The screenshot displays the BBI Partnering platform interface. At the top, there is a profile for CEA Grenoble, a Research Institution, managed by Laurent Bedel. Below this, the 'BBI Activities' section is visible, with tabs for various categories like Biogas, Pyrolysis site, Syngas, Automotive, etc. The main content area shows 'Selected Topics 2017: D1, D3, D5, F1, R1, R2' and a detailed description of Topic R1 on CO2 conversion.

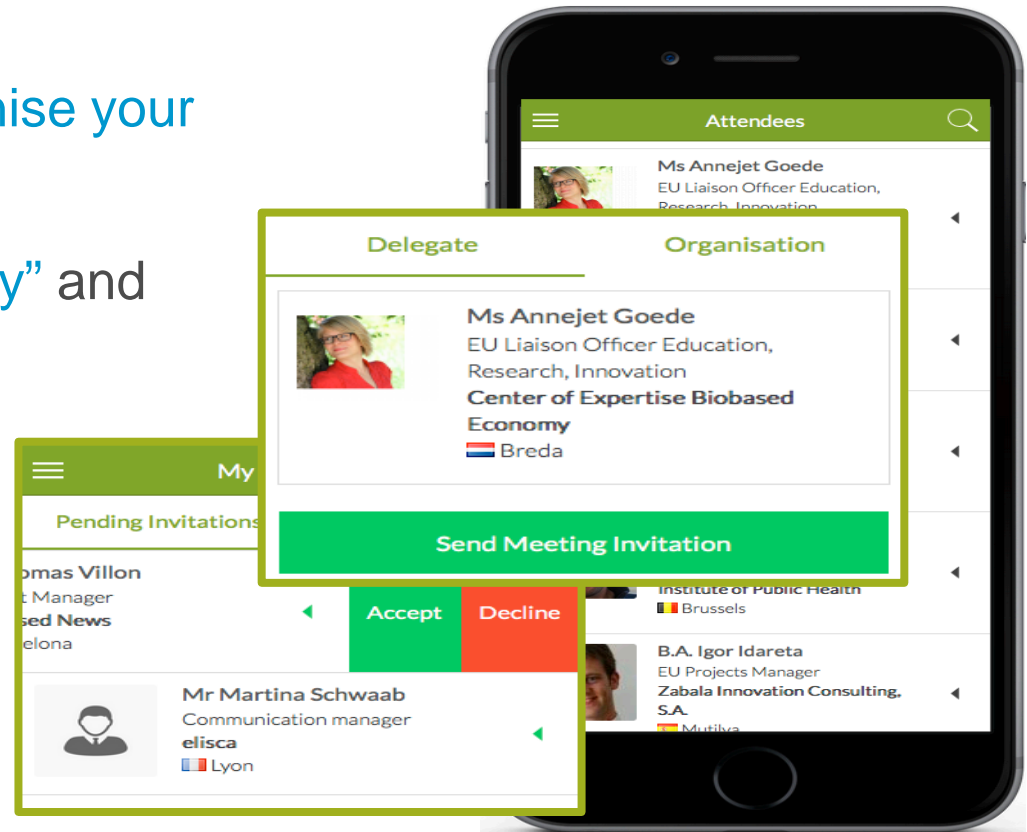

Below the CEA profile, there is a profile for Erdyn, a Consulting, Management firm in Paris, managed by Maud Huehé. A pitch titled 'Development and using of chemical precursors and building blocks for p...' is displayed, with 'Topics 2017: R1'. To the right of the pitch, there is a logo for IK4 Research Alliance and a profile for Maria Jose Suarez, Senior Researcher at EIBAR (GIPUZKOA).

The pitch content includes a 'Consortia proposal' section: 'Gaiker-IK4 offers its expertise on developing and using chemical precursors and building blocks to formulate coatings, with special interest in polyurethane systems. Gaiker can design, characterise and assess wet and rheological properties to final functional performance (mechanical, chemical, aesthetics,...) considering printing rod-coating, flexography, silk-screen printing, gravure printing,...) and final application (specifications), including packaging.'
